Message from the Guest Editors

The agriculture industry is essential in the world not only for the economic growth, but also for the sustainability of our living environments. Agricultural goods are particularly the primary source of virgin materials needed for environment-friendly products. However, there are many challenges to sustain the agricultural supply chain management, such as handling of perishable goods, preservation and distribution of products susceptible to weather/temperature conditions, etc. Hence, this special issue aims to bring together the recent advances in research methodologies and their applications to various aspects of agricultural supply chain activities.

Deadline for manuscript
submissions:

30 September 2021

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [Chemical Abstracts](#), and many other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14.7 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2020).
